

Instructions: Print out the cards and cut along the solid lines. Fold the cards along the dashed line. Use tape/glue to bond cards together.

DIGGER

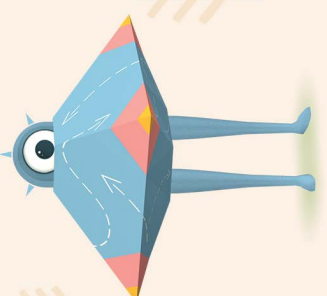

The Digger digs down into the ground, releasing buried items and creating water canals.

FAVORITE FOOD

MOVER

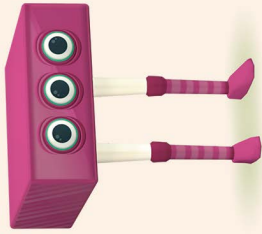

The Mover moves the entire algorithm in the direction it is facing, one step at a time. Certain rocks can be moved with the Mover's power.

FAVORITE FOOD

REPEATER

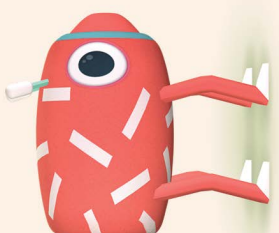

The Repeater repeats an algorithm from beginning to end. An Algorithm will only use one unit of every creature's food when the Repeater is running. Set the Repeater to a specific number, or choose infinity to loop the algorithm forever.

FAVORITE FOOD

BUMPER

The Bumper bumps into trees and knocks food to the ground. Too many bumps can hurt the trees. Rocks can be broken using the Bumper's power.

FAVORITE FOOD

FUNCTION

FUNCTION

FUNCTION

FUNCTION

Fold.
DO NOT
CUT.

Instructions: Print out the cards and cut along the solid lines. Fold the cards along the dashed line. Use tape/glue to bond cards together.

DROPPER

The Dropper can plant seedlings or drop water using the items in your inventory.

FAVORITE FOOD

BUILDER

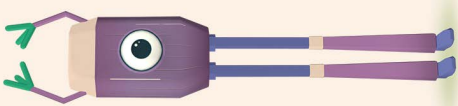

The Builder stacks blocks of earth to build structures. Use the Builder to reach high places.

FAVORITE FOOD

GRABBER

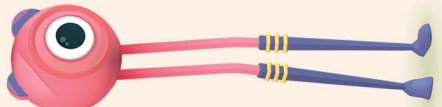

The Grabber can pick up items and carry them while an algorithm runs. Tell the Grabber what you want it to grab, and pair it with Seeker in an algorithm to find and collect what you need.

FAVORITE FOOD

SEEKER

The Seeker can look anywhere in Algos for the things you need. Tell the Seeker what you want it to find, and pair it with Mover in an algorithm. Together they will move towards what you're searching for.
